Fa HENRY SPENCER MOORE *by Andréa Souza*

Henry Spencer Moore was an English sculptor and artist. He was best known for his semi-abstract monumental bronze sculptures which are located around the world as public works of art.

Waiver Arts was responsible for the logistics and delivery of a bronze sculpture by Henry Moore in the residence of a Brazilian collector.

The sculpture weighs around 1,500Kg, 5m tall and was shipped in a 20' container to New York through the Port of Rio de Janeiro.

The sculpture was transported and unloaded with the help of a Munck and 10 highly qualified professionals in logistics.

The whole process was carefully performed, since the place where the statue was unloaded was of difficult access, with narrow streets, not allowing large trucks or maneuvers.
